

Information Bulletin Number 06/2002

To : All UAE Operators & Organizations
From : Director Flight Safety Services
Ref. : 20212/2153/02
Date : 14 July 2002
Subject : JAR Quality Assurance Methodology

As you are aware the GCAA is moving towards the adoption of specific JAA requirements for future UAE regulations. Embodied in some JARs is the requirement for Quality System (eg. JAR OPS 1&3, FCL, STD-IA).

Whilst there is no GCAA timetable in place in the immediate future for the introduction of the Quality System, operators / organizations are strongly recommended to familiarize themselves with JAA / ISO methodology and documentation.

The purpose of this letter is for information and no response is required.

Regards,

AHMED AL HADDABI
DIRECTOR FLIGHT SAFETY
